

Web Committee Report  
November 9, 2008

Co-webmasters Linda Waites and Judy Preston started maintaining the state web site in late October, 2005. Our goal was to provide a vehicle that would enhance communication within the organization and provide a resource of information to be used by our membership and other interested parties. We also look at the site as a means of marketing OHC to the general public.

**What we have accomplished since November 2007 –**

We have added a Member Benefits page which includes information about the Purchasing package currently available.

We have shared more County stories. Thank you to all the counties that sent us pictures and information. This wouldn't happen without you.

We have added information to the trail and legislative pages. Thanks to Linda Waites for sorting thru all the Legislative info and posting what we need to know.

We have added to bridle trail maps in the library, and provided descriptions of some of the trails at each location.

We have kept the Calendar, Officers and Committee chairs up to date.

We have kept the County information up to date. This past year we lacked info from only 3 counties and by working with the Secretary, Treasurer and Membership chair we have developed a clearer reporting method for the counties.

We have worked on improving the aesthetic “look” of the site.

**Goals for the future:**

We would like to add more descriptions to the trail map library, the horse camp facilities, and any other information that would be of interest to a “horse” person that not been there before – (ie a description of the type of terrain, water or other obstacles, best access if you have a big trailer, type of number of campsites and the type of rigs they will hold...)
