## PARK FEATURES

**HOPEWELL EARTHWORK**  
 This earthwork is actually a hilltop enclosure constructed nearly 2,000 years ago by the Hopewell Culture. It is a long, winding mound of raised earth about three to four feet high. Now covered in deep forest, it is easy to miss, but fascinating to those interested in history. This enclosure is known locally as Carlisle Fort.

**SCENIC VIEW**  
 Park at the Eby Road parking lot and venture a short distance east across the picnic area to discover a spectacular view of the Twin Creek Valley including Germantown, Carlisle and Miamisburg. Rare grassland birds such as northern harriers, bobolinks and grasshopper sparrows make this hilltop their home.
